As an unsecured creditor of a bankrupt company, you may have a claim against the assets of its bankruptcy estate. But how much you will receive and when is uncertain.

If you sell to us, you will likely receive cash for your claim much sooner than if you wait to be paid from the debtor. With cash in hand, you can move forward with your business plans.

Ready Buyer Waiting

After the original filing of the bankruptcy petition, it may take years for bankruptcy claims to be resolved. And even when a resolution is reached, distributions, if any, may be made over an extended period of time. Madison Liquidity Investors, LLC ("Madison") is offering an alternative and is seeking to buy your claim.

Reduced Time Commitment

If you sell to us, you will no longer need to follow the court proceedings, and you may eliminate future legal expenses associated with your status as a creditor in a bankruptcy proceeding.

Accounting Considerations

If the amount owed to you by the debtor has been written off as bad debt, selling your claim to Madison provides cash for at least part of that receivable. It also may permit your company to record, for accounting purposes, the proceeds received from us as a recovery of bad debt.

Reliable Liquidity Solution

Madison is a leading and reliable choice for creditors seeking a cost-efficient liquidity solution. Since 1996, more than 60,000 companies and individuals nationwide have chosen to sell their illiquid financial assets to Madison and our affiliates.
